

Fit-Buddy

1. Define Problem Statements

Problem Statement

Fitness users often receive generic workout advice that does not account for their individual goal, body information, preferred intensity, or subsequent feedback.

Opportunity

Build a simple AI fitness assistant that generates a structured 7-day plan, provides nutrition/recovery tips, stores plans, and updates them based on user feedback.

Objective

Provide an accessible FastAPI + Gemini application that turns a small set of fitness inputs into an actionable personalized routine.

Prepared from the supplied Fit-Buddy project ZIP and team information. Technical claims are based on the inspected source code and README; no unsupported benchmark numbers are added.
