

Fit-Buddy

3. Problem-Solution Fit

Problem

Users need individualized fitness guidance rather than one-size-fits-all routines.

Solution

Fit-Buddy uses user profile data and Gemini models to generate and refine structured 7-day workout plans plus nutrition/recovery guidance.

Fit Indicators

- Personalized inputs are directly used in generation prompts.
- Feedback is persisted and used for plan updates.
- SQLite keeps user and plan history available for dashboard viewing.

Prepared from the supplied Fit-Buddy project ZIP and team information. Technical claims are based on the inspected source code and README; no unsupported benchmark numbers are added.
