### Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

|                                                                                                                                                                                                                                               |                                                                                                                                                                                                               |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p><b>SAYS</b></p> <ul style="list-style-type: none"> <li>• I want a workout plan suited to my goal and intensity.</li> <li>• I need something structured and easy to follow.</li> <li>• Can I change the plan if my needs change?</li> </ul> | <p><b>THINKS</b></p> <ul style="list-style-type: none"> <li>• I need a routine that fits me.</li> <li>• A generic plan may not suit my needs.</li> <li>• Feedback should help improve my plan.</li> </ul>     |
| <p><b>DOES</b></p> <ul style="list-style-type: none"> <li>• Enters fitness details.</li> <li>• Reviews the generated 7-day plan.</li> <li>• Submits feedback for an updated plan.</li> </ul>                                                  | <p><b>FEELS</b></p> <ul style="list-style-type: none"> <li>• More confident with a personalized routine.</li> <li>• Motivated by a structured weekly plan.</li> <li>• Frustrated by generic plans.</li> </ul> |
