| <b>Project Name</b>  | Fit-Buddy                |
| <b>Maximum Marks</b> | 5 Marks                  |

### Functional Features Overview:

This document lists all the functional features included in the project solution. Each feature is described with its purpose, implementation status, and contribution to the overall solution.

| S.No | Feature Name                               | Feature Description                                         | Module / Component                 | Status (Done / In Progress / Pending) | Marks Contribution |
|------|--------------------------------------------|-------------------------------------------------------------|------------------------------------|---------------------------------------|--------------------|
| 1    | Personalized 7-day workout plan generation | Generate a structured 7-day plan from user fitness details. | Workout generation / Gemini        | Done                                  | Core               |
| 2    | Nutrition/recovery tip generation          | Generate concise nutrition/recovery guidance.               | Nutrition generator / Gemini Flash | Done                                  | Core               |
| 3    | Feedback-driven workout plan update        | Revise the plan using the original plan and user feedback.  | Plan update / Gemini               | Done                                  | Core               |
| 4    | User and plan persistence in SQLite        | Store user profiles and workout plans in SQLite.            | SQLite / SQLAlchemy                | Done                                  | Core               |
| 5    | Coach/Admin dashboard                      | View registered users and their plans.                      | Admin/coach view                   | Done                                  | Core               |
| 6    | [Information Required]                     |                                                             |                                    |                                       |                    |
| 7    | [Information Required]                     |                                                             |                                    |                                       |                    |
| 8    | [Information Required]                     |                                                             |                                    |                                       |                    |

### Feature Summary:

| Metric                     | Count / Value |
|----------------------------|---------------|
| Total Features Planned     | 5             |
| Total Features Implemented | 5             |
| Core / Must-Have Features  | 5             |

|                                    |                        |
|------------------------------------|------------------------|
| Additional / Nice-to-Have Features | 0 / none documented    |
| Features Tested & Verified         | [Information Required] |

Feature Category Breakdown:

| S.No | Category                  | Features in Category | Example Features                                          |
|------|---------------------------|----------------------|-----------------------------------------------------------|
| 1    | User Interface (UI)       | 1                    | 7-day plan interface / result display                     |
| 2    | Backend / Logic           | 3                    | Workout generation, nutrition generation, feedback update |
| 3    | Database / Storage        | 1                    | SQLite user and plan persistence                          |
| 4    | API / Integration         | 1                    | FastAPI routes and Gemini integration                     |
| 5    | Security / Authentication | 0                    | No authentication feature documented                      |
