

## Project Demo Planning

|               |                          |
|---------------|--------------------------|
| Date          | 29/09/2026               |
| Team ID       | 6ab3ec17b5170a9b58b3a66b |
| Project Name  | Fit-Buddy                |
| Maximum Marks | 1 Mark                   |

### Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

| S.No | Demo Section          | Description                                              | Duration (mins)        | Responsible Member |
|------|-----------------------|----------------------------------------------------------|------------------------|--------------------|
| 1    | Introduction          | Project purpose and fitness-planning problem.            | [Information Required] | Lingeshwaran S S   |
| 2    | Solution Overview     | Architecture, workflow, and AI personalization.          | [Information Required] | Prathish R         |
| 3    | Workout Generation    | Enter user details and generate the 7-day plan.          | [Information Required] | Prathish R         |
| 4    | Feedback Refinement   | Submit feedback and show the revised plan.               | [Information Required] | Akash S            |
| 5    | Nutrition & Dashboard | Show nutrition/recovery guidance and stored users/plans. | [Information Required] | Dinesh S           |
| 6    | Q&A / Closing         | Answer questions and summarize the solution.             | [Information Required] | Lingeshwaran S S   |

### Demo Flow Summary:

| Step | Activity                         | Notes                                                     |
|------|----------------------------------|-----------------------------------------------------------|
| 1    | Introduction & Problem Statement | Introduce Fit-Buddy and the fitness-planning problem.     |
| 2    | Solution Overview                | Explain the FastAPI, Jinja2, Gemini and SQLite workflow.  |
| 3    | Live Feature Demonstration       | Demonstrate personalized workout and feedback refinement. |
| 4    | Q&A Session                      | Answer questions and clarify implementation details.      |
