

Scalability & Future Plan

Date	29/09/2026
Team ID	6ab3ec17b5170a9b58b3a66b
Project Name	Fit-Buddy
Maximum Marks	1 Mark

Scalability & Future Plan:

This document outlines how the current project solution can be scaled to handle larger user bases, increased data loads, or extended features in the future. It also captures the team's roadmap for enhancing and evolving the project beyond its current state.

Current System Limitations:

S.No	Limitation	Impact	Priority to Address (High / Medium / Low)
1	SQLite is used for user and plan persistence.	May need a more scalable database for larger workloads.	[Information Required]
2	Local execution is the documented deployment mode.	Broader access requires hosted deployment.	[Information Required]
3	Workout generation depends on Gemini API availability.	External API availability can affect generation.	[Information Required]

Scalability Plan:

S.No	Scalability Aspect	Current State	Proposed Upgrade / Solution
1	User Load	Local FastAPI application	[Information Required]
2	Data Storage	SQLite with SQLAlchemy	[Information Required]
3	Performance	Local execution / API testing	[Information Required]
4	Security	API keys via environment configuration	[Information Required]

Future Roadmap:

Phase 1	[Information Required]	[Information Required]	[Information Required]
---------	------------------------	------------------------	------------------------

Phase 2	[Information Required]	[Information Required]	[Information Required]
Phase 3	[Information Required]	[Information Required]	[Information Required]
Phase 4	[Information Required]	[Information Required]	[Information Required]
